KALTIC KULINER

Kaltic Kuliner is my family brand food culinary business. In Kaltic Kuliner, we have many menus like Siomay Bandung, Mpek-Mpek, Batagor, Ayam Penyet, etc. I help my mom service customer, made their food order, deliver it and marketed it on social media. I can make and manage it. From this experience, i learn time management so good.

Note:

My parents run a business from I was 5yo until now and i start to help them when I was 10yo. Start from gadget business to culinary give me many experiences.

REMPAH DRINK

This is one of my brand. It's inspired from my mom. She likes to drink herbal to keep her body healthy. I use this brand to follow Entrepreneurship Student Program.

I made a team, I'm responsible for generating ideas and reports and he is in charge of administration. We made it through to the interview stage, but we couldn't attend the interview. So, i sell it like usually to my mom's customer. It has 2 varian, tamarind lemon and jahe sereh

HOSPITAL MANAGEMENT SYSTEM

This is my second project as Full Stack Engineer in Alterra Academy. This is collaborated project, we choosed to make "Hospital Management System".

My Jobdesk in this project are made UI/UX Design and made Frontend Code

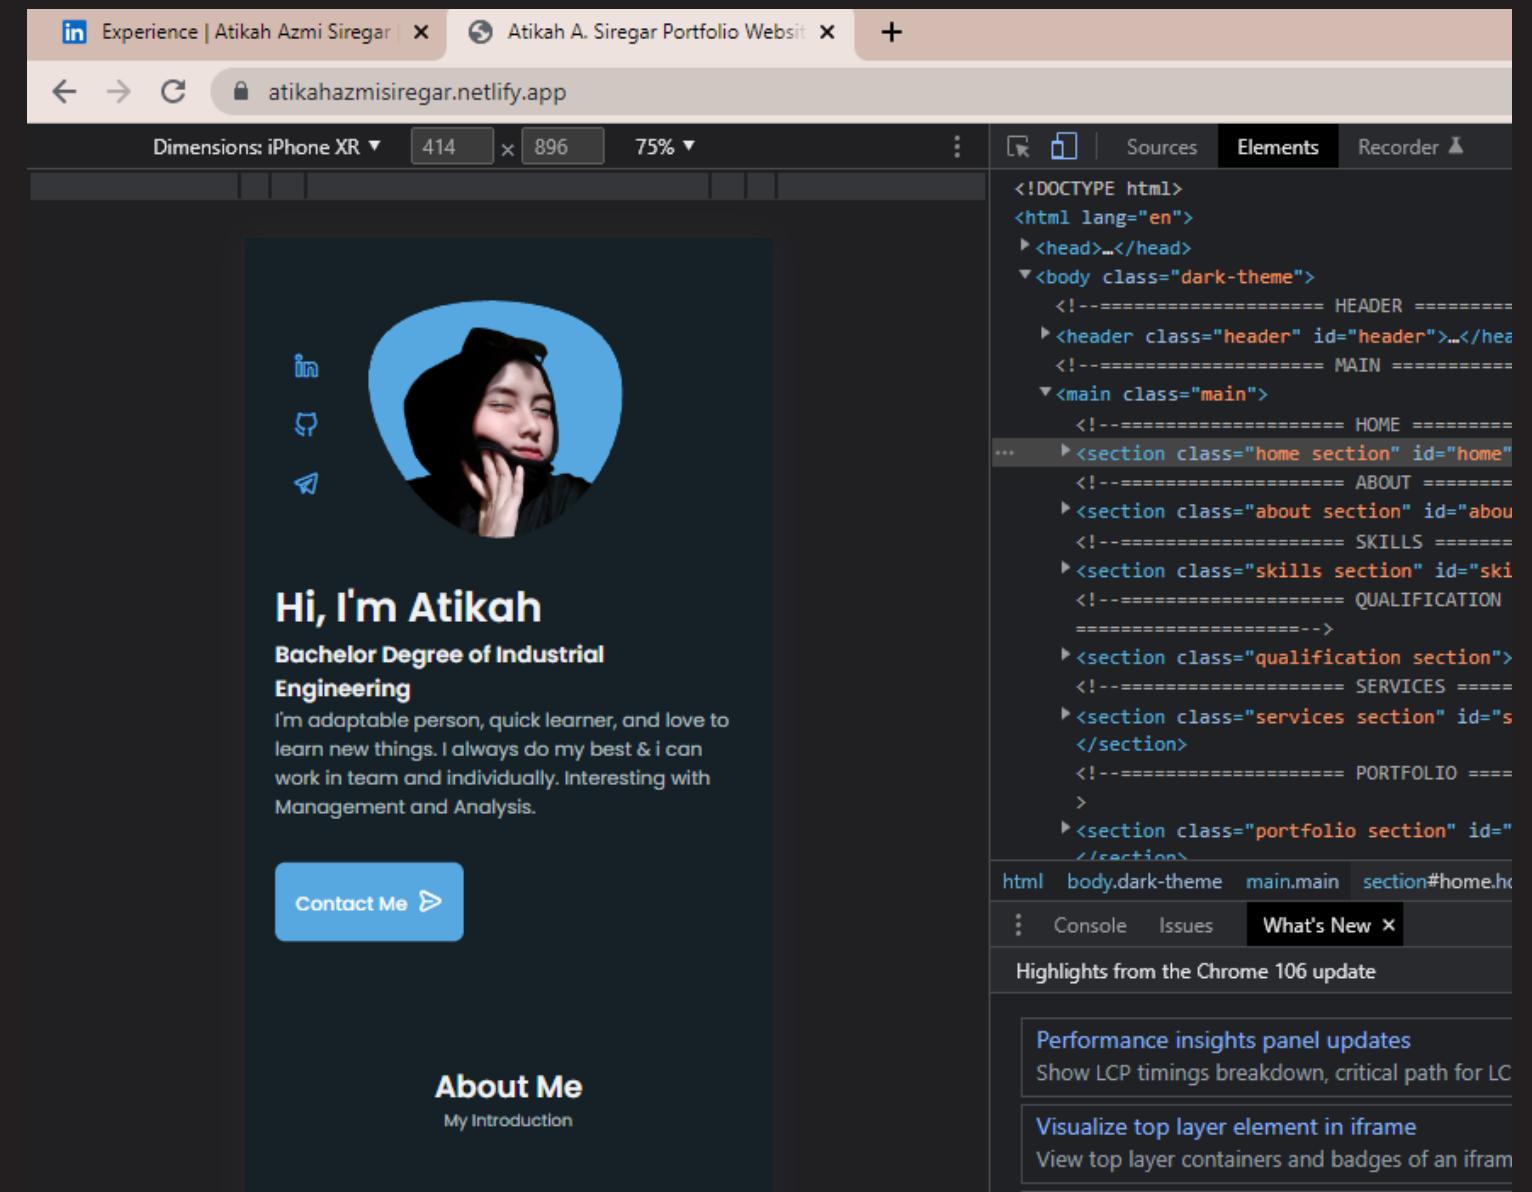

The image is a composite of three parts. On the left is a photograph of a modern hospital reception desk with blue and white tiles, a curved glass partition, and a trash can. In the center is a screenshot of a web-based hospital management system. The top navigation bar says 'Welcome! Login Hospital Management System'. It has fields for 'Email' (alfinasution@gmail.com) and 'Password' (redacted), and a 'Login' button. Below this is a screenshot of the 'Admin / Dashboard' page, which includes a sidebar with options like 'Dashboard', 'Manage Data', 'Doctor', 'Patient', 'Utils', 'Admin', 'Nurse', 'Manage Outpatient', and 'Schedule'. The main content area shows a patient profile for 'Alfi Syahri' (NIK: 3671041282811772), including details like gender (Laki-laki), age (31), address (Jl. Pesona Indah No. 45 Jakarta Pusat), phone number (08127320212323), and registration date (15 September 2021). Below this is a section titled 'Outpatient History' showing two entries for '05 Dec 2021' at '12.00 - 13.00' by 'dr. Zainudin' (Dokter Saraf dan Otak) for 'Alya' (Dokter Saraf dan Otak) with a 'Flu' diagnosis. On the right is a large horizontal arrow pointing from the physical reception area towards the digital dashboard.

AHR CONSULTANT

1. Make the best inventory solutions for customers
2. Create solution planning, flowcharts
3. Implementation in the odoo application

My Jobdesk in this project are as a Project Manager, Leader and Consultant. My Team have chosen to be The Best Team in this boothcamp program.

The screenshot shows the Odoo Inventory application interface. The top navigation bar includes 'Inventory', 'Overview', 'Operations', 'Products', 'Reporting', and 'Configuration'. The main title is 'Products / [OT1] Promag'. Below the title, there are several tabs: 'General Information' (selected), 'Attributes & Variants', 'Sales', 'Purchase', 'Inventory', and 'Accounting'. The 'General Information' tab displays the following details for the product 'Promag':

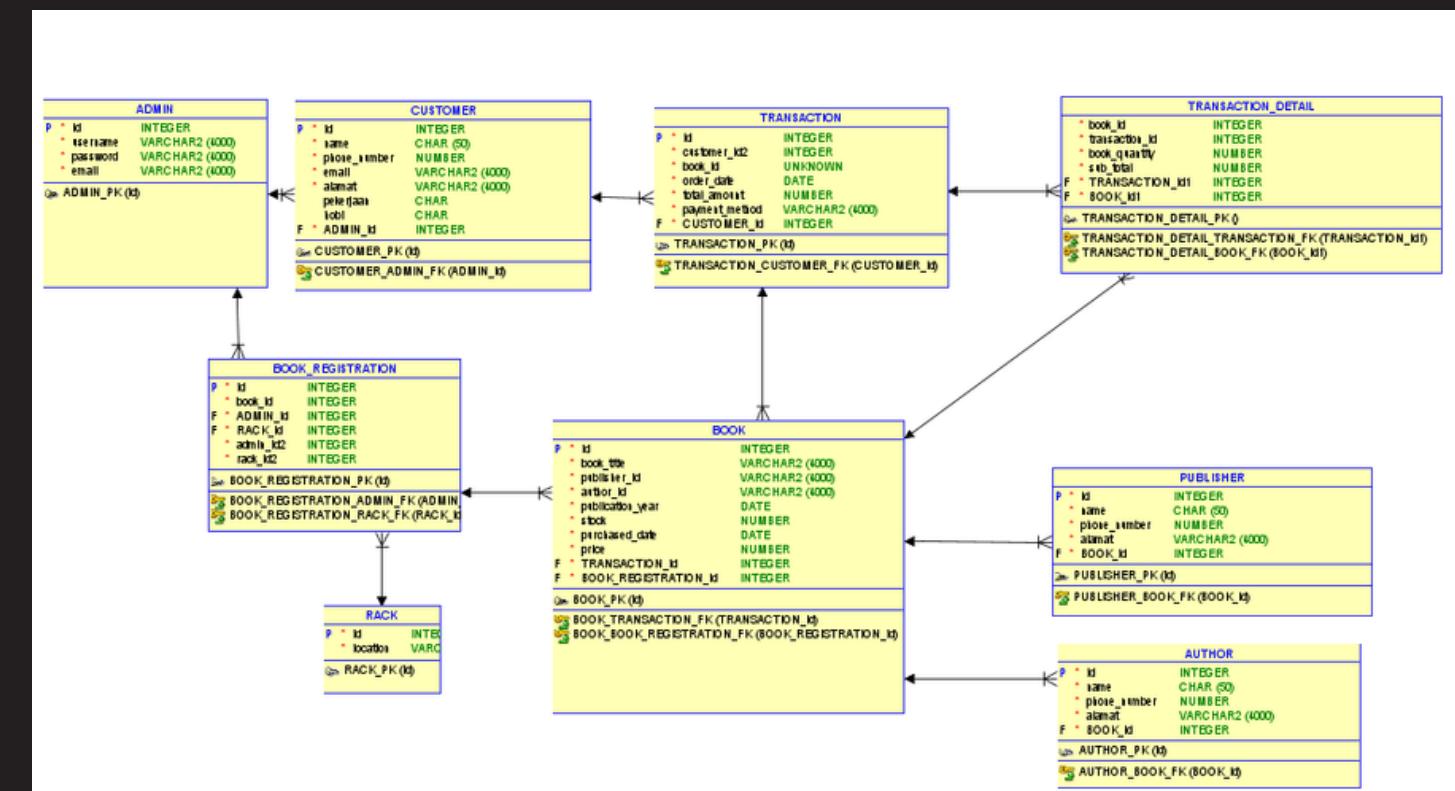

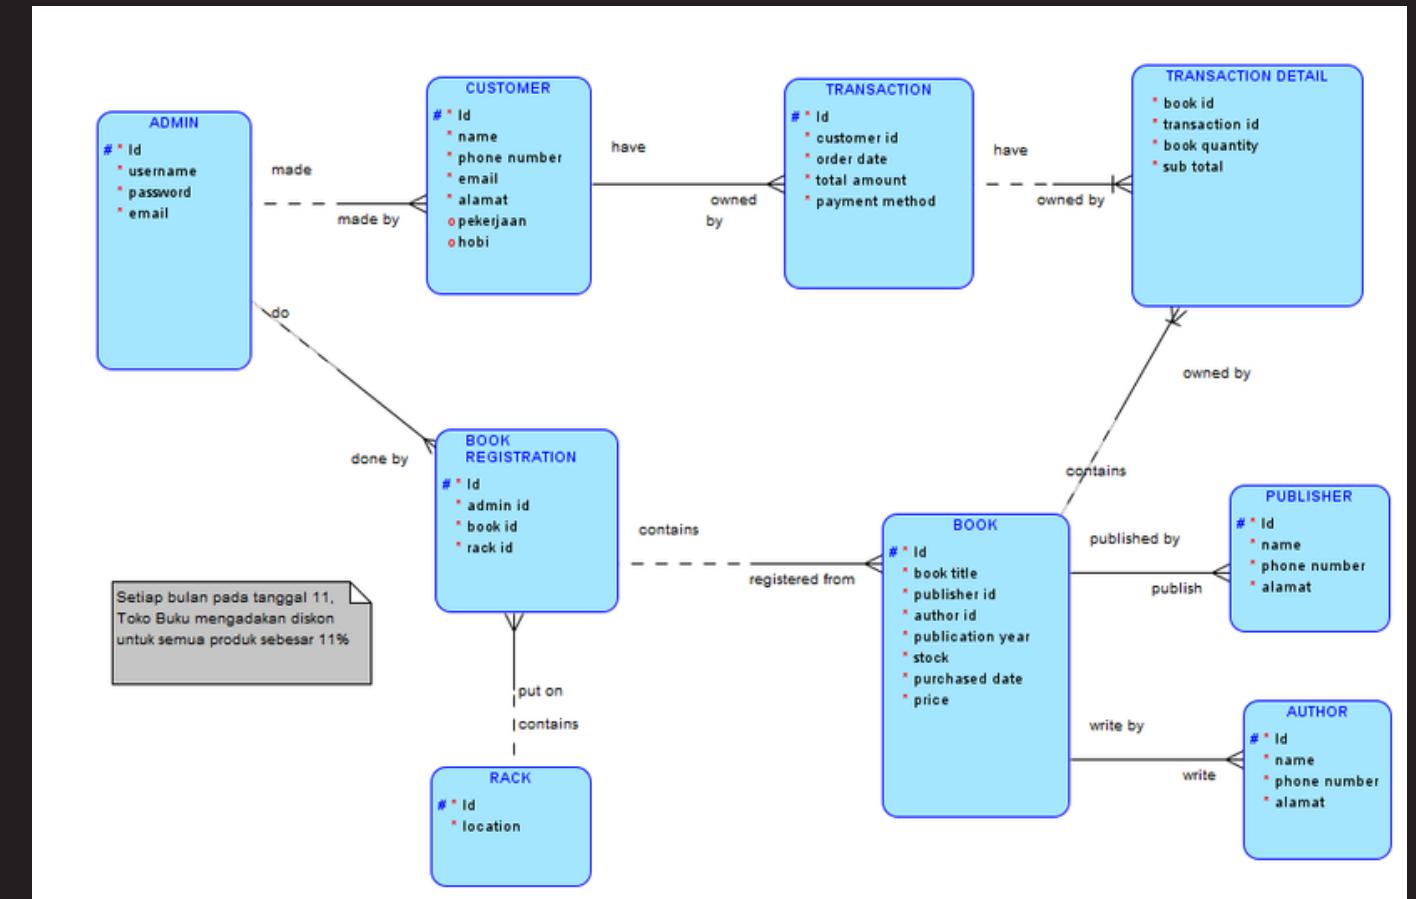

- Can be Sold?
- Can be Purchased?
- Product Type? Storable Product
- Invoicing Policy? Ordered quantities
- Re-Invoice Expenses? No
- At cost
- Sales price
- Sales Price? Rp 5,000.00
- Customer Taxes?
- Cost? Rp 5,019.44 per Ta
- Product Category? All / Obat
- Internal Reference? AM1
- Barcode? All
- Product Tags? All / AlatMedis
- All / Expenses
- All / Obat

Below the tabs, there are two explanatory notes:

- Storable products are physical items for which you manage the inventory level.
- You can invoice them before they are delivered.

Pembelajaran Hari Ini

Kelas #4 Gaya Hidup Minim Plastik dan Decluttering

going ZERO WASTE

PEMBELAJARAN KELAS #4

TIPS DECLUTTERING

1. Memulai dengan hal yang paling mudah
2. Mmbereskan barang-barang dan sampah berdasarkan kategori
3. Menempatkan semuanya sesuai dengan tempatnya (Membuat batasan ruang atau pertimbangan digital dan kepentingan)
4. Selalu kembali kepada prioritas
5. Konsistensi, perlahan-sedikit namun rutin dilakukan agar terbiasa.

APA SIH YANG DIMAKSUD DENGAN..?

Decluttering adalah menyortir atau memilah barang agar rumah atau lingkungan tampak lebih rapi dan teratur.

Gaya Hidup Minim Plastik adalah gaya hidup dimana kita mengurangi penggunaan plastik yang memungkinkan untuk menjadi sampah. Seperti plastik belanjaan sebaiknya diganti menggunakan totebag yang sifatnya *re-usable*, selain hemat kita juga membantu menjaga lingkungan

GIMANA KITA HARUS MEMULAI GAYA HIDUP MINIM PLASTIK?

MENEMUKAN MOTIVASI TERBESAR

- Faktor Finansial
- Faktor Kesehatan
- Faktor Sosial dan Ekologis
- Faktor Personal (tingkat produktivitas, estetika, spiritual, hobi dan lainnya)

Pada dasarnya kita memang tidak bisa lepas dari sampah. Selama hidup, manusia akan terus menghasilkan sampah. Namun, produksi sampah dapat dikurangi, salah satunya dengan cara menerapkan GAYA HIDUP MINIM PLASTIK.

Kelas #3 Sharing Bersama Alumni dan Monitoring Bersama Fasilitator going **ZERO WASTE**

PEMBELAJARAN KELAS # 3

STORY
Dari kelas kali ini banyak kisah-kisah inspiratif yang bisa dijadikan contoh dari para alumni. Dimulai dari hal-hal sederhana dari diri sendiri yang mampu memberi dampak besar bagi lingkungan. Dalam melakukan kegiatan terkadang muncul rasa malas, maka dari itu tips dari Kak Betty adalah agar melakukan sesuatu secara perlahan namun konsisten, sehingga lama kelamaan kita akan terbiasa dengan sendirinya.

SELAIN ITU APA YANG BISA KITA LAKUKAN?

BERPERAN MELALUI HAL YANG KITA SUKAI
Seperti yang dilakukan oleh Kak Margaretha, dimana beliau melaksanakan aksi melalui musik. Beliau sangat menyukai musik, dan dengan musik beliau bisa mengajak dan mengedukasi teman-teman untuk ikut andil dalam masalah penanganan sampah.

Kita tidak harus langsung melaksanakan perubahan secara besar-besaran, yang terpenting adalah berperan secara perlahan dan konsisten.

Angka tersebut sangat fantastik, mari kita berpikir bagaimana Indonesia beberapa tahun yang akan datang apabila dari sekarang kita tidak menerapkan 4R (Recycle, Reuse, Reduce, Replace, Replant, Repair, Rethink & Respect).
